**ONSEN**  
HOT POOLS  
• QUEENSTOWN •

[WWW.ONSEN.CO.NZ](http://WWW.ONSEN.CO.NZ)

**THE WATER**

At Onsen Hot Pools we capture pure water on its endless journey between the sky and the Earth in order to fill and continually refresh our pools. To maintain the pristine state of the water we bombard the passing water flow with high intensity ultraviolet rays eliminating the need for the more traditional chlorine, which is better for both you and the environment. Then if required, we add a touch of Bromine leaving our tubs with a clarity and purity to match our surroundings.

**THE POOLS**

Housed in private cedar-lined rooms, complete with a shower and changing facilities, the cedar hot tubs have a depth of 1m and offer panoramic views across the Shotover River. The spring fed water is heated to 37.8C on a hot day and to 39.8C in cooler months ensuring a relaxing experience unique to Queenstown.

At the touch of a button the front wall retracts and puts you amongst the amazing alpine scenery, while at night you can dim the lights and watch the southern constellations wheel past. Alternatively leave the wall in place and absorb the scenery through large picture-framed windows.

**SHUTTLE SERVICE**

Complimentary pick up from The Station building in the town centre at half past the hour - bookings essential.

**BOOKINGS ESSENTIAL**
